1 Introduction 7

Windows Installer Packages 7

Product Organization 8

Properties and Conditions 9

Sequences and Actions 10

Using the InstallShield Installation Designer 11

InstallShield Build Process 12

Running an Installation 12

Package Validation 13

Using the Direct Editor View 14

Recent InstallShield Functionality 14

2 User Interface 17

User Interface Review 18

Using the Dialogs View 18

Basic Interaction Between Controls 22

MaskedEdit Controls 25

Validating MaskedEdit Input 27

Tangent: Spawning a Modal Dialog Box 29

Custom Validation 30

Working with the SelectionTree Control 32

Getting Feature Selection States 33

Working with Multiple Feature Destinations 35

Disabling the Change Button 38

Increasing a Feature's Space Requirements 39

VolumeSelectCombo 41

Billboards 44

Troubleshooting Billboards 47

Text Styles **48**
Refreshing a Dialog Box **49**
Using Overlapping Controls 50
Using Twin Dialog Boxes 52

3 Custom Action Basics **55**
Avoiding Custom Actions **55**
Searching for Files 56
Reading Registry Data 57
Removing Files and Folders 58
Copying and Moving Files 60
Using DuplicateFile 60
Using MoveFile 61
Deleting Registry Data 61
Types of Custom Actions **64**
Executable Custom Actions 64
Script Custom Actions 64
Windows Installer DLL Custom Actions 65
Standard DLL Custom Actions 65
InstallScript Custom Actions 65
Managed Code Actions 66
Other Standard Action Types 66
Other InstallShield-Introduced Action Types 66
Review: Custom Actions and Sequences View **67**
Action Scheduling **70**
Immediate Execution 72
Deferred Execution 73
Rollback Execution 74
Commit Execution 75
Action Conditions **75**
Developing Custom Actions **76**
Launch-Executable Custom Actions 76
Techniques for Cleaning Up a Failed Uninstallation 77
Set-Property Custom Actions 78
Set-Directory Custom Actions 79
Error Custom Actions 80
VBScript Actions 80
Getting and Setting Properties 82
Exiting the Installation 83
Other Interaction with Windows Installer 83
Additional Tips 84

Windows Installer DLL Actions . . . 84
Creating the DLL . . . 85
Creating the Custom Action . . . 88
Troubleshooting MSI DLL Actions . . . 90
Getting and Setting Properties . . . 90
Exiting the Installation . . . 91
Using the Windows Installer API . . . 91
InstallScript Actions . . . 92
Getting and Setting Properties . . . 94
Exiting the Installation . . . 95
Additional InstallScript Functionality . . . 95
Managed Code Custom Actions . . . 96
Creating the Managed Library . . . 96
Creating the Custom Action . . . 98
Getting and Setting Properties . . . 100
Exiting the Installation . . . 102
Additional Interaction with Windows Installer . . . 102
Custom Actions and Merge Modules . . . 105
Properties and Merge Modules . . . 105
Creating Actions in a Merge Module . . . 106
Specifying Action Placement in the Merge Module . . . 106
Manually Scheduling the Action in the Parent Project . . . 109

4 Custom Action Techniques . . . 111

Accessing and Modifying the Running MSI Database . . . 111
Process Overview . . . 112
Windows Installer SQL Syntax . . . 112
Reading and Modifying MSI Tables . . . 114
Example: Populating a List Box . . . 114
Example: Changing Feature Attributes . . . 120
Example: Changing a Shortcut Description . . . 121
Example: Refreshing a Dialog Box . . . 124
Limitations . . . 131
Working with Custom Tables . . . 131
Reading from the Custom Table . . . 131
Creating Your Custom Table . . . 132
Finishing Touches . . . 134
Writing to the MSI Log File . . . 134
Using VBScript . . . 134
Using C or C++ . . . 135
Using InstallScript . . . 138

Adding Progress Information. . . . 139
Working with Action Text. . . . 140
Working with Action Data 141
Action Text and Action Data for Custom Actions 144
Custom Actions and the Progress Bar 145
Hiding the Cancel Button on SetupProgress 148
Detecting User Cancellation 150
Message Boxes. . . . 150
Using SpawnWaitDialog 152

5 Additional Topics 155

Working with Prerequisites 155
Setup Prerequisites vs. Feature Prerequisites 157
The Structure of .prq Files. . . . 157

Reboots. . . . 158
Default Windows Installer Behavior 158
Displaying FilesInUse or MsiRMFilesInUse 161
Forcing or Suppressing a Reboot 163

Working with the Directory Table 165
Different Source and Target Directory Structures 167

Advanced Windows Installer Features 168
Chained MSI Packages 168
Multi-Instance Installations 170
Setting Per-instance Destinations. . . . 172
Creating Per-instance Shortcuts 172

A Exercises and Discussion Questions 173

Chapter 1: Introduction 173
Discussion and Review Questions. . . . 174

Chapter 2: User Interface 175
Discussion Questions. . . . 176

Chapter 3: Custom Action Basics 177
Discussion Questions. . . . 178

Chapter 4: Custom Action Techniques 179
Discussion Questions. . . . 179

Chapter 5: Additional Topics 180
Discussion Questions. . . . 180

Putting Everything Together 181
